first term English Test

City in the sky

Dubai, in the United Arab Emirates, is different from other cities because it is a city of glass skyscrapers in the desert. One of these; is the spectacular Burj Khalifa skyscraper. It is 828 meters high and has got more than 160 floors. It was designed by Adrian Smith . You can see it from about 100 kilometers away! The temperature in the desert is sometimes 50 °C, but it's cool inside this modern building.

This amazing skyscraper is large enough for 25,000 people. It has got a luxury offices, restaurants, swimming pools, libraries, a gym and 900 expensive flats. From the visitor area on the 124th floor, the cars in the streets below are tiny. The tower has got 57 very fast lifts, also lots of stairs.

This enormous building has got over 1200 luxury shops. The city of Dubai is a fantastic place, but only if you are very rich and you like shopping.
