

The Second term English Test 2026

My Elementary School Memories

I am Alfred . I remember my elementary school very well . It was small and colourful
With a big yard where we played every day after lessons .

I loved going there every morning carrying my little school bag and meeting my
friends , running and playing together .

Our teacher was Patricia , a very kind and patient teacher . She was cheerful and
always encouraged us to learn , even when we made mistakes . She taught us to help
others because she was very caring . Sometimes , we would help the school guards clean
the school or organise the yard and we enjoyed that very much . It made us feel proud
and happy to help others.

One of the memories that I will not forget is when one of our classmates got sick and
we went to visit him , we took gifts for him and some cards with drawings . He was so
happy when he saw us .

But not everything was perfect . Sometimes we argued over games or places in the
lines .

Some of the games that I liked most were football, skipping the rope , potato race .
We played them with much excitement and lots of fun , even our teacher joined us in playing .
