

First and last Name :.....

Ben Douyem Bachir Secondary school

School year 2024-2025

The branch of Ben Gucha

3rd Term test

Part one:

(08)

Read the text carefully then do the following activities.

Air pollution is actually the addition of any harmful substances to the atmosphere, **which** causes the damaging of the environment, human health and the quality of life.

With the development in industry, came along the increase in air pollution, which occurs inside homes, schools, offices even in the countryside. Consequently, there has been an increase in the death rates resulting from various diseases caused by air pollution varying from breathing problem to lung cancer.

Air pollution does not only affect people but it also damages the whole ecological system. Air pollution has reached such a critical stage where **it** affects the earth's atmosphere as it lets in more harmful radiation from the sun. consequently, our polluted atmosphere is becoming a better insulator, thus, preventing heat from escaping back into space.
