<u>MOCK EXAM</u> <u>SUBJECT 2</u>		

PART ONE: Reading**(15 points)****A) Comprehension****(07 points)***Read the text carefully then do the activities.*

E-commerce has been dramatically accelerated during COVID-19. More than half (58%) of consumers admit to buying more goods online than usual due to the pandemic.

As e-commerce sales rise, counterfeiters find more opportunities to make a profit, essentially stealing sales from legitimate brand owners and potentially harming customers. In 2019, there was an estimated \$509 billion worth of counterfeit products on the global market. Shoppers and retailers are more vulnerable than ever to online scams given the increased volume of online purchases and putting consumer health and safety, customer loyalty and company revenue at risk.

Governments must act decisively in handling cases of fraud in e-commerce transactions and impose sanctions by applicable laws. Sellers on e-commerce sites must increase security so that fraudulent behaviour such as deceptive behaviour that harms consumers financially or misuses the identity of buyers does not occur in purchase transactions through e-commerce sites. consumers who have become victims of crimes in e-commerce transactions are advised to report to the authorities if their rights have been violated by business actors.

E-commerce =Electronic commerce

*adapted from internet***Comprehension (7pts)****1- Say whether the following statements are True or False according to the text(1,5pts)**
